Kalle Pohjanjoki

Cloud Engineer - Computer Science student
✉kalle@pohjanjoki.com | 0406866145 | Tampere | LinkedIn | GitHub | Personal Website

Summary

Computer Science student at Tampere University. Passionate about cloud architecture, automation, and secure infrastructure. Azure certified and hands-on experience with AWS.

Education

Tampere University 01/2026 – Present
Bachelor of Science, Computer Science
Minor in Communication Systems and Networks
GPA: 4.4

Turku University of Applied Sciences 08/2024 – 12/2025
BBA, Business Information Technology
Major in Software Engineering. Switched to CS at Tampere University

Experience

Tampere University Tampere
Teaching Assistant 10/2026 – Present
Working as a Teaching Assistant for the Programming 1 course.

Lauta Media Malta
Software Engineer Intern 10/2022 – 12/2022
Contributed to a high-traffic web platform with over 3 million monthly visitors. Responsibilities included fixing bugs and developing minor features for the website.

Projects

Homelab GitOps Platform
A declarative local Kubernetes platform managed via GitOps using ArgoCD for automated continuous delivery. Features real-time cluster telemetry powered by Prometheus and Grafana, alongside automated service health and SSL monitoring.
https://github.com/kallePohjanjoki/homelab-gitops

Container CI/CD Pipeline
Built an automated build-test-deploy pipeline for a containerized application using GitHub Actions, Docker, and Terraform. Provisioned the Azure Container Apps environment as code and configured automated image builds, testing, and deployment on every push.
https://github.com/kallePohjanjoki/container-cicd-pipeline

Portfolio
Developed and deployed a portfolio by defining Azure infrastructure as code with Terraform. Established a fully automated GitHub Actions CI/CD pipeline and integrated custom DNS records for domain management.
